Re: CS Docket No. 98-120

Dear Ms. Dortch:

On July 24, 2003, Daniel Brenner, Michael Schooler and Diane Burstein of the National Cable & Telecommunications Association met with Jordan Goldstein, Legal Advisor to Commissioner Copps. During our meeting, consistent with our written comments in the above-captioned proceeding, we argued that broadcasters should not be entitled to dual carriage during the transition and that the FCC should not grant broadcasters must carry rights for their digital broadcast signal until they have returned their analog spectrum. In addition, we discussed the cable industry's roll-out of high definition broadcast and cable programming, which in many markets includes carriage of a public television station's digital signal. Finally, we urged the Commission to adhere to its January 2001 ruling that interpreted "primary video" to mean a single digital video program stream.

Respectfully submitted,

/s/ Daniel L. Brenner
